

OEL 1104-64

13 November 1964

MEMORANDUM FOR THE RECORD

SUBJECT : Shutdowns at

25X1A

The attached charts indicate the periods of time at during which the presence of Soviet Satellites caused shutdowns of our electronics tests.

25X1A

Last week it was decided that radar cross section measurements by would not be suspended during these periods since the nature of the radiation did not tend to disclose the type of activity.
